PROFILE

I am a **UI/UX Designer and Frontend Developer** with over **4 years of experience** specializing in creating user-centered, responsive, and visually engaging digital products for web and mobile platforms. My expertise bridges both **design and development**, enabling me to deliver end-to-end digital experiences that align with business goals and user needs.

I have successfully led cross-functional design teams, developed high-fidelity prototypes, and implemented scalable front-end solutions using **React.js**, **Next.js**, and **React Native**. With a strong background in **user experience design**, **interaction design**, and **frontend development**, I aim to craft intuitive interfaces that enhance usability, accessibility, and overall customer satisfaction.

Core Skills

Design & UX Skills

- UX Research, User Journey Mapping, Information Architecture
- Wireframing & Interactive Prototyping (Figma, Adobe XD)
- Responsive & Accessible UI Design
- Design Systems & Component Libraries
- Visual Design, Branding, and Motion Design

Frontend Development Skills

- React.js, Next.js, React Native, TypeScript, Redux Toolkit, TanStack Query
- HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), REST API Integration
- Familiarity with SSR, CI/CD pipelines, and Docker
- Version Control (Git, GitHub)

Tools & Platforms

- **Design:** Figma, Adobe XD, Photoshop, Illustrator
- **Development:** VS Code, Android Studio, IntelliJ, Jira
- **Collaboration:** Miro, FigJam, Notion

Key Achievements

- **Led a 4-member creative design team** at *Inleads IT* to deliver multiple end-to-end design projects, improving client satisfaction and usability.
- **Designed and prototyped over 30 pages** for *ExceedICT*, focusing on clean, intuitive user journeys and modern UI patterns.
- **Improved UI consistency and performance** at *FreeCast Inc.* by developing reusable components using ShadCN and Tailwind CSS.
- **Delivered full responsive design systems** for *TheLawApp*, ensuring accessibility and visual coherence across web and mobile platforms.
- **Enhanced collaboration** between design and development teams through well-documented Figma design systems and developer handoffs.

EXPERIENCE

Lead UI/UX Designer

 Apr 2025 - Present

Inleads It | Bogora, Bangladesh

- Led a 4-member creative team, overseeing end-to-end design processes for multiple web and mobile projects.
- Conducted client meetings to gather requirements and translate business needs into intuitive and engaging design solutions.
- Analyzed user experience flows and developed high-fidelity UI designs, including interactive prototypes and animations using Figma.

Software Frontend Developer

 Mar 2024 - Aug 2024

Freecast Inc. | Orlando, United States

- Developed reusable UI components using the ShadCN library, ensuring consistent design and functionality across the application, and applied Tailwind CSS utility classes to enhance responsiveness and user experience.
- Tested and built the UI with manual testing processes, utilizing Next.js build tools along with Docker for containerization and a CI/CD pipeline in GitHub to ensure efficient and seamless deployments.
- Integrated REST APIs in the frontend using React.js and TanStack Query, effectively handling GET, POST, DELETE, and UPDATE operations to enable dynamic data interactions and improve application performance.

Application Developer

 Sep 2023 - Feb 2024

Z It Solution Ltd. | Dhaka, Bangladesh

- Collaborated with cross-functional teams including designers, product managers, and developers to design and implement user-friendly, responsive web applications using React.js, ensuring alignment with project goals and user needs.
- Utilized Next.js to develop scalable and high-performance web applications, leveraging server-side rendering (SSR) and dynamic routing for improved SEO and faster page loads.
- Integrated front-end components with RESTful APIs in collaboration with back-end developers, ensuring smooth data flow, optimized functionality, and seamless user experiences across the application.

Senior UI/UX Designer

 Dec 2020 - May 2023

Inmogr Fzco | Dubai, United Arab Emirates

- Design and Prototype: Create user-centered UI mockups/prototypes and graphic interface elements that ensure a seamless user experience across desktop, mobile web, and native apps.
- User-Centered Approach: Leverage human-centered design principles and web analytics to inform and refine design decisions.
- Collaboration and Communication: Present project updates effectively to senior management and work efficiently within Agile and Lean UX methodologies. CURRENT PROJECTS
